Thank you, Adrienne, for meeting with me last week. I understand from your letter that you are on vacation, and I do hope you're enjoying the time off.

In the meantime, please find attached photos of the repaired neon sign that Steve Fagalde took on 26 July.

Peter

Subject: Scott's Restaurant Submittals

Dear Peter,

Thanks for hand delivering today the three following submittals: 1. A photograph taken yesterday by Steve Fagalde of tables and chairs placed in and around the Pavilion; A revised legal instrument (text only without Exhibits A, B and C), which I have given to Brian Flynn to review; and 3. Revised event reporting for 2008-2013, which includes additional data that may or may not address what we requested in our letter, to be determined once I've had a chance to carefully review it.

You informed me that John Briscoe is working with Steve Fagalde on a possible plan to remove the metal gate entry. Thank you for letting me know that Scott's is working on a solution to this matter.

I informed you that Steve should have obtained plan approval in advance of installing the public seating and that he still must do so. He must also install BCDC-approved public shore signs. Please refer to our public shore guidelines on our website for the appropriate language, logo and manufacturing specifications. Please do not have these signs manufactured prior to obtaining plan approval from this staff.

Please continue to refer to the May 16th letter for direction on how to proceed.

Sincerely,

Adrienne Klein
